

FLOWDIRECTOR

1-on-1 Executive Strategy & Onboarding Master Playbook

The complete word-for-word call scripts, psychological frameworks, live cockpit configuration workflows, and objection-handling guide for FlowDirector Onboarding Coaches & Implementation Specialists.

1. Mission of the FlowDirector Coach

As a FlowDirector Coach, your role is **not customer support** and it is **not a generic software demo**. You are acting as a **Fractional Chief of Staff & High-Performance Time Strategist** for the business founder.

The Coach's Prime Directive

Your sole mission in the 20-minute onboarding call is to transition the founder from a **"Reactive Firefighter"** (working 14 hours/day on ₹300/hr tasks) into an **"Architect of Leverage"** who ruthlessly protects their time and delegates everything below their Owner Hour Value (OHV).

The 3 Non-Negotiable Call Deliverables

Every successful onboarding call must conclude with these 3 milestones locked in the founder's live cockpit:

Milestone	What Must Be Configured	Success Metric
1. Owner Hour Value (OHV)	Calculated in <i>Settings > Owner Hour Value</i> based on exact working days/week and hours/day.	Founder acknowledges: "Any task below ₹X/hr must not touch my hands."
2. Top 3 Monthly KRAs	Locked in the <i>Goals & KRAs</i> tab with measurable targets.	Founder commits to reviewing these 3 outcomes every single week.
3. Day Themes & Evening Closure	Assigned 6 day themes (e.g. Marketing Mon, Team Tue, Finance Wed) and learned the 5-min closure habit.	Founder promises to run Evening Closure at 6:00 PM today.

2. Core Philosophical Principles (Coach Knowledge)

Before dialing a founder, you must deeply embody the 4 core principles of the FlowDirector system:

Principle 1: "Jo Pehle Likha, Wahi Bachega" (Priority Pre-emption)

Average founders start their day by opening WhatsApp, email, or Slack. This guarantees their entire day is hijacked by other people's emergencies. In FlowDirector, the founder plans their **One Main Outcome** and **Top 3 Priorities** the evening before. What is written first survives; everything else waits.

Principle 2: The ₹300/Hour Founder Trap

If a founder earns ₹50 Lakhs/year, their time is worth **₹1,850 – ₹2,500 per hour**. Every time they format an invoice, chase a vendor, or write an email reply that an assistant could handle at ₹300/hr, they are literally destroying wealth.

Principle 3: Intention vs. Reality

High performers don't just plan—they measure variance. FlowDirector's Daily Cockpit contrasts *Intended hourly time blocks* against *Actual executed reality* to eliminate time optimism and build operational discipline.

3. The 20-Minute Strategy Call Playbook (Minute-by-Minute)

Follow this exact chronological structure on every Google Meet call:

0:00 – 3:00 (3 Mins)

Phase 1: Executive Rapport, Pattern Interrupt & Diagnostic

Goal: Establish immediate authority, break their busy day pattern, and uncover their biggest operational bottleneck.

COACH SCRIPT (WORD-FOR-WORD):

"Hi [Founder Name]! Great to connect with you. I see you are leading [Company Name] in the [Industry] space with a team of [Team Size]. I'm [Your Name], your implementation strategist at FlowDirector."

"Before we jump into your cockpit, I have a quick 20-second diagnostic question for you: **If you look at your past 7 days, how many hours were spent driving real revenue and strategy versus fighting fires and chasing your team?**"

Coach Tip: 95% of founders will say: "70% to 80% of my time is spent in firefighting." Validate them immediately: "That is completely normal for fast-growing companies, but it's the exact ceiling keeping you stuck. Today we are going to fix that."

3:00 – 8:00 (5 Mins)

Phase 2: Screen Share & The Owner Hour Value (OHV) Reveal

Goal: Share your screen, open their workspace (or standard OHV calculator), and calculate their exact hourly worth.

COACH SCRIPT (WORD-FOR-WORD):

"[Founder Name], I am sharing my screen now. Let's calculate your exact **Owner Hour Value**."

"1. What is your target annual net take-home income or profit for this financial year? (E.g. ₹50 Lakhs, ₹1 Crore?)"

"2. How many days a week do you realistically work? (1 to 7?)"

"3. On average, how many hours per day are you logged in?"

[Input the values into the OHV calculator].

"Look at this number right here: **₹[OHV Number] per hour**. This is the financial value of one hour of your brainpower."

"Here is the golden rule of FlowDirector: **If a task can be done by someone for ₹300 or ₹500 an hour, and you do it yourself, you are paying ₹[OHV - 300] per hour for the privilege of doing assistant work.** From today, your cockpit will flag any task below this number in red for delegation."

8:00 – 15:00 (7 Mins)

Phase 3: Live Cockpit Configuration (KRAs, Day Themes & Capture)

Goal: Have the founder log in or guide them through configuring their 3 critical pillars.

COACH SCRIPT (WORD-FOR-WORD):

"Now let's configure your 3 core operating pillars inside your FlowDirector cockpit:"

Pillar 1: The Top 3 Monthly KRAs (Goals Tab)

"Tell me the top 3 needle-moving outcomes that must happen this month for [Company Name]. Only 3 Big Rocks. E.g. 1. Close 5 Enterprise Clients, 2. Hire Senior Sales Lead, 3. Complete Product Redesign. Let's lock them in right now."

Pillar 2: Day Themes (Weekly/Settings Tab)

"High performers theme their days. For example: Monday = Team Reviews & KRAs; Tuesday & Wednesday = Sales & Client Growth; Thursday = Operations & Tech; Friday = Finance & Strategy. Let's set your 6 weekly headlines."

Pillar 3: The Quick Capture Inbox

"Whenever an idea or to-do enters your head during the day, don't keep it in your mind and don't create WhatsApp self-messages. Hit Quick Capture, dump it in 3 seconds, and tag it with ₹ value. At 5:30 PM, you route it to your daily timeline or delegate it to your team."

15:00 – 20:00 (5 Mins)

Phase 4: The 5-Minute Evening Closure Pact & Mandate Lock-in

Goal: Lock in the daily evening habit, confirm trial benefits, and set up WhatsApp accountability.

COACH SCRIPT (WORD-FOR-WORD):

"[Founder Name], software doesn't change businesses—disciplined habits do. Here is your single homework assignment for today:"

"At the end of your workday today (e.g. 6:30 PM), open FlowDirector and spend **exactly 5 minutes** doing Evening Closure:"

1. Mark completed tasks ✓
2. Write your **One Main Outcome** for tomorrow.
3. Select your **Top 3 Priorities** for tomorrow.

"When you wake up tomorrow morning, you will not touch your phone or email until your One Main Outcome is in motion. If you do this for the next 14 days of your trial, you will reclaim at least 15 hours every single week."

"I have also sent you my direct WhatsApp. Send me a quick screenshot of your Day 1 cockpit tonight once your evening closure is done!"

4. Tough Scenarios & Objection Handling Scripts

Here is how certified coaches respond to the 4 most common founder objections:

Objection 1: "I am too busy firefighting right now to spend time learning another app."

COACH RESPONSE:

"I completely hear you, [Founder Name]. But that firefighting is precisely why you need this today. If you have time to lose ₹15 Lakhs a year on low-value tasks, you have 5 minutes to plan. FlowDirector isn't a complex project management tool like Jira or Asana—it takes exactly 3 minutes in the morning and 5 minutes in the evening. Let's set it up together right now so tomorrow is your first calm day."

Objection 2: "My team is not reliable. If I don't do the work myself, it gets ruined."

COACH RESPONSE:

"That is the classic Founder Bottleneck Syndrome. When you do the task yourself, your team never learns, and your capacity remains capped. In FlowDirector, we use the **Delegation Tracker**. You don't just dump tasks—you assign an Owner Hour Value and a strict Follow-Up Date. You review their deliverable once a week during your Tuesday Team Review theme. You inspect; you don't execute."

Objection 3: "I already use Google Calendar, Apple Notes, and Excel. Why do I need FlowDirector?"

COACH RESPONSE:

"Google Calendar tells you WHERE to be; FlowDirector tells you WHAT YOUR TIME IS WORTH. Standard calendars treat a ₹300 invoice follow-up and a ₹10 Lakh client deal with the same importance. FlowDirector forces visual value hierarchy with Owner Hour badges and tracks your Intention vs Reality gap. It is an executive operating system, not a calendar."

Objection 4: "Why is there a Razorpay payment mandate required for the 15-day free trial?"

COACH RESPONSE:

"Great question! FlowDirector is built exclusively for serious business owners and executives who value their time. The automated mandate guarantees that your workspace, database backups, and custom KRAs remain uninterrupted after your 15-day trial period. No charges are deducted today (₹0 charged), and you have full control to adjust or cancel your subscription anytime right from your Billing Settings with 1 click."

5. Coach Operations Workflow (Inside Coach Desk)

Every coach must execute these 4 operational steps for every booking:

1. Pre-Call Briefing Review (15 Mins Before):

Open <https://flowdirector.co/#coach>. Review the founder's company name, industry, team size, focus topic, and founder notes.

2. 1-Click WhatsApp & Email Reminder:

Click [ **Send 1h Reminder**] and tap [ **WhatsApp**] to send the pre-filled greeting message.

3. Join Meeting:

Click [ **Join Video Room**] at least 2 minutes before the scheduled time slot.

4. Post-Call Outcome Logging:

Immediately after the call, click [ **Complete Session & Add Notes**]. Enter the founder's calculated OHV, their 3 locked KRAs, and key insights. This updates the company's ledger in the Super Admin panel.

6. Standard WhatsApp & Email Templates for Coaches
